EXPERIENCE

SEO & Web Re-Design (Freelance) Feb 2026 – Apr 2026
N.G. Building Cleaning Corp., Ottawa, ON

- Overhauled the website’s UI and aesthetic, shifting from a basic SEO audit to a complete digital redesign using custom JavaScript and CSS to enhance functionality.
- Achieved a perfect 100/100 SEO score and a 95/100 Accessibility score on Google PageSpeed Insights through targeted technical optimizations.
- Improved site architecture and local search visibility by prioritizing long-tail keywords and resolving foundational performance bottlenecks.

Web Design (Freelance) Aug 2025 – Oct 2025
Tenit Tutoring, Ottawa, ON

- Consulted with the client to define their target audience, presenting competitor research, customized colour palettes, and minimalist UI aesthetics.
- Drafted and iterated wireframes to map out content placement and user flow, seamlessly integrating an online scheduling system and the company’s origin story.
- Built and launched the finalized designs into a fully functional Shopify website following collaborative feedback sessions.

Data Analytics / Visualization Support May 2024 – Dec 2024
Shared Services Canada, Ottawa, ON

- Analyzed raw IT helpdesk data for Small Departmental Agencies, tracking ticket lifecycles, service costs, and resolution times to identify operational bottlenecks.
- Developed clear Power BI visualizations and PDF reports for senior leadership, providing data-driven insights that informed the development of a new automated AI support tool.
- Designed and distributed an internal Microsoft Teams survey to 50 cross-departmental employees, translating high-level project objectives into clear, accessible questions to extract actionable user feedback.

Junior IT Planning & Reporting Analyst Sep 2023 – Apr 2024
Housing, Infrastructure and Communities Canada (formerly Infrastructure Canada), Ottawa, ON

- Redesigned the UI and information architecture of the Digital Business Management (DBM) SharePoint site to clearly communicate team functions, processes, and client contact methods.
- Consulted with cross-departmental stakeholders to design and launch a secondary SharePoint portal centralizing data for the launch of a mentorship program.
- Developed web content and visual assets that met WCAG/AODA standards, ensuring clear and inclusive communication across multiple internal portals.
- Built automated workflows with Power Automate to streamline communications and reporting processes, specifically converting extensive Microsoft Form submissions into formatted email alerts and structured client documents.

PROJECTS

Contributor – “Saving a tree — and a Mohawk tradition” Apr 2025
The Narwhal, Ottawa, ON

- Co-authored an in-depth report on the impact of the emerald ash borer, gathering qualitative insights through field research and community interviews.
- Translated complex environmental and cultural data into compelling feature for a national audience.

Project Lead – “Watching Territory” Digital Exhibition Apr 2025

- Led the digital transformation of a physical art exhibition by utilizing 360-degree camera captures to create a fully immersive and interactive virtual environment.
- Developed a custom platform using Wix to host the exhibition, successfully transcending physical space limitations and expanding global accessibility for the artwork.
- Managed the end-to-end user journey, ensuring the digital experience maintained the emotional and cultural integrity of the artwork.
